Designed for excellence

Enhance your building's look with on-trend themes

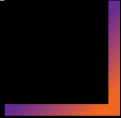

Eye-catching design really matters in mid to high-end residential and commercial buildings. To ensure our elevators make your building stand-out, our experienced design team tracks interior and architectural fashions. They use this knowledge to create themed selections of high-quality materials, lighting, finishes and fixtures. Each theme is carefully composed to give architects and designers the palette to coordinate with the style needs of any building.

Creating an inspired cabin is easy

By sorting the available materials into five harmonious styles, this design palette carefully guides your choices. The styles ensure that you will choose complementary elements, safe in the knowledge that your unique cabin design will be on-trend and look great.

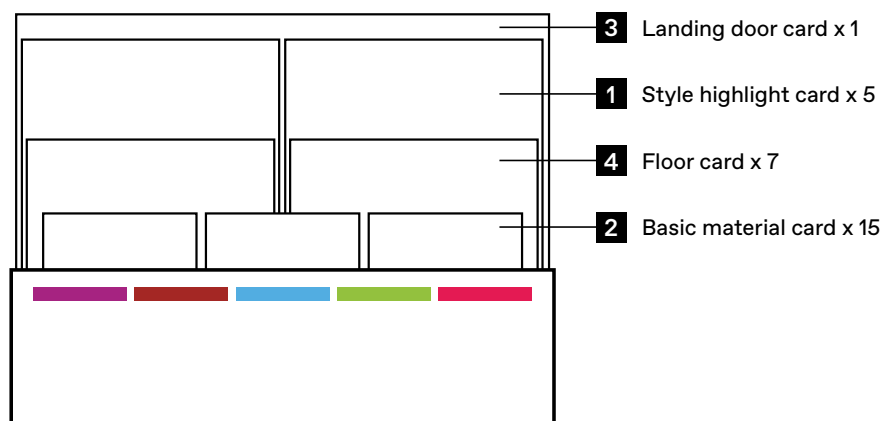

DESIGN YOUR CABIN

Choose a style and select from a co-ordinated selection of premium materials and finishes. Create your sophisticated cabin design with ease.

How it works

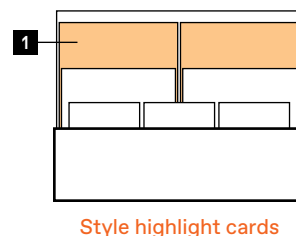

Our easy-to-use sample box helps you make the best design choices.

01

Select your STYLE

Start with your building's look. Choose the style that fits best from the list of options below. Pick your favorite **1 Style highlight card** for your cabin wall finishes.

STYLISH

Stylish interior design with a touch of luxury. (P8-9)

CONTEMPORARY

Minimalistic interior design, influenced by local taste. (P12-13)

MODERN FRESHNESS

Modern interior mixing vibrant colors with subtle patterns. (P16-17)

HERITAGE REFINED

Revival of colors, crafts and materials from the past with today's conveniences. (P10-11)

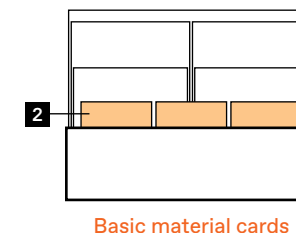

NATURAL HOME

Balanced interior inspired by the colors and materials of nature. (P14-15)

02

Select your CABIN

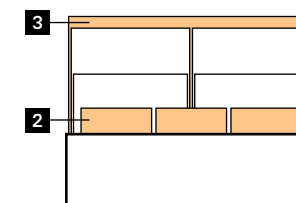

You will then need the **2 Basic material cards** for mixing and matching your cabin wall finishes. Select only the cards that match the color code of your chosen style.

03

Select your LANDING DOOR

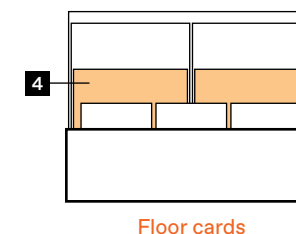

Next, select your favorite landing door materials using the **3 Landing door card** or **2 Basic material cards**.

04

Select your FLOOR

Then select the floor material by using the **4 Floor cards** to match your cabin.

05

Finalize your design

Lastly, choose other fixtures from the following sections in this booklet.

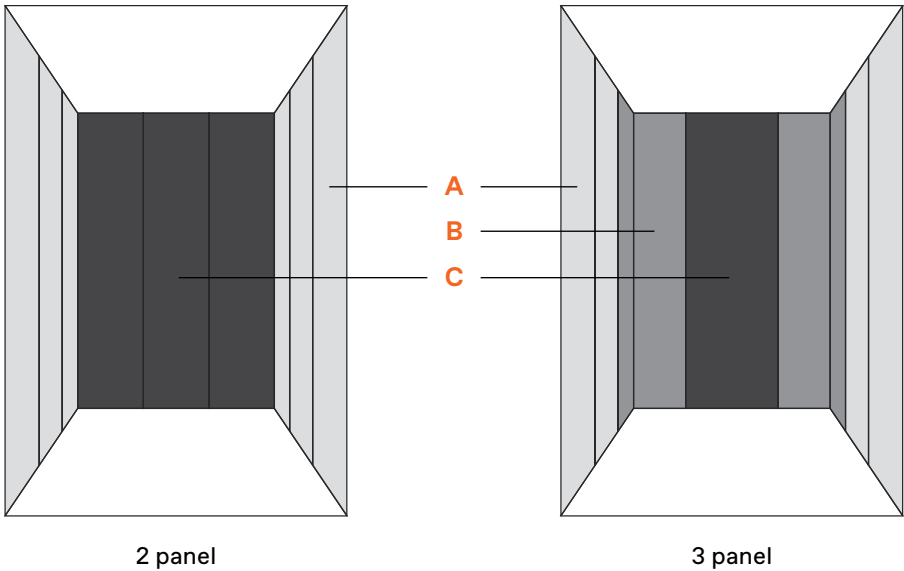

- Ceiling (P20-21)
- Handrail (P23)
- Hall lantern (P27)
- Signalization (P30-31)

STYLISH

Stylish interior design with a touch of luxury.

SELECT YOUR CABIN FINISH

The all-important touches that create the right
ambiance and enhance the passenger experience.

Ceiling

Complete the cabin atmosphere by selecting ceiling and lighting effects to match each car and landing. Our design logic will ensure a harmonious result by matching ceiling materials with your wall selections.

S1-C1

enta meta zeta

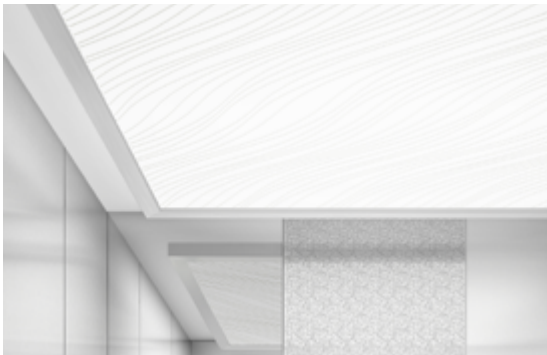

Main panel with LED downlights and a light panel for diffuse lighting

S2-C2

enta meta zeta

Suspended panel with architrave framing and back-lit recess

S1-C2

meta zeta

Multiple LED down lights and subtle backlighting emphasize clean modern lines

S3-C1

enta meta zeta

Frosted LED light panel for diffuse lighting and a warm atmosphere

S3-C2

enta

Maximum size light panel for ambient full ceiling illumination

Floor

Stone, ceramic or wooden flooring pattern choices complement every style - or extend the lobby's look into the elevator for perfect fluency.

- A** TFW03 | Dark wood
- B** TB302 | Light mocca
- C** CFL010 | Ash
- D** TB6013 | Rock black

- E** TFW13 | Light wood
- F** TB8937 | Dark coffee
- G** H260 | Dark grey

Handrail

Add a handrail for optimal safety and a finishing touch. Color and material options range from traditional wood to modern stainless steel materials and titanium gold coating.

TRH06
Dual round handrail -
Hairline finish stainless steel

TSF06 (HL-TG)
Round handrail -
Light wood and hairline finish stainless steel
with titanium gold coating

TSF01
Round handrail -
Hairline finish stainless steel

TSF08
Flat handrail -
Hairline finish stainless steel

HRA1
Round handrail -
Dark wood

HRA3
Round handrail -
Hairline finish stainless steel
with titanium gold coating

Rear wall

Side walls

Rear wall & side walls

CHOOSE YOUR LANDING FINISH

Doors and lanterns to welcome passengers and enhance your lobby and landings.

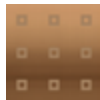

Landing door & Hall lantern

Stunning door finishes complement landing and lobby decor to make an elegant first impression. Discrete or extrovert, hall lantern choices can match the scale, traffic and atmosphere of each landing.

Choose lantern light colors to complement lobbies and landings
Subject to technical approval

LANDING DOOR PATTERNS

- 

P028-EH-TR

- 

RAL9003
 Powder Coating
 RAL9003

Landing door finish will default to match front wall
Several basic materials can also be used for landing doors, please check corresponding style pages

CONFIGURE YOUR SIGNALIZATION

Emphasize your building's quality with tactile operating panels that communicate clearly and blend perfectly.

COP & LIOP

Modern COP and LIOP options feel good to touch and communicate clearly. Panels can be specified for flush or surface mounting, and finished to match the cabin wall materials.
